How to order lunch

Our preferred way of ordering is through the Qkr! app which can be downloaded for free at:

<https://qkr-store.qkrschool.com/store>

Students can also order from their classroom:

1. Fill in a lunch order bag found in the lunch order box in classrooms or at the front office.
2. Write your order on the bag along with your **name and learning space**.
3. Put your money in the bag and leave the bag in the green lunch order box in the classroom. The green box is taken to the canteen in the morning to be filled and then picked up at lunch time by class monitors.

**Don't forget,
the canteen is open at recess to buy snacks!**
